FIELD EXPERIENCE

*...a blending
of the practical
with the academic.*

For some college students, leaving the classroom and entering the world of work can be somewhat of a shock. Although most college graduates have more than 17 years of academic preparation, many have had little exposure to actual job situations.

But that's not a problem for those Stout students who participate in the University's Field Experience program. Now in its eighth year, the program allows students to earn academic credit while working in actual job situations. Unlike the "internships" that many universities require of senior students, Stout's Field Experience provides a greater variety of job situations and is open to underclassmen.

Jack Ganzemiller, director of the program, explains that students are given credit for the learning experience they receive on the job, as it relates to their studies at Stout. But the simple fact that students are working is not the reason academic credit is awarded, he pointed out. "The reason we are awarding academic credit is because of learning obtained from the experience relating to the student's major, minor or concentration," Ganzemiller noted. Since Field Experience is treated as a college course, students must obtain approval from the chairman of the department sponsoring the credit.

More than 2,000 students have now received credit for work in hundreds of different jobs. Wages may range from non-salaried volunteer work to as much as \$10 an hour, according to Ganzemiller.

He said that the program is an attempt to "blend the realities of the real world into the theories students learn in class and to show that both have their attributes."

Employment might be as close as Menomonie, or as far away as Caracas, Venezuela, where one Hotel and Restaurant Management major served for a summer as a sales trainee. Business Administration majors have listed Field Experience jobs such as salesman, warehouse group leader, assistant foreman, and real estate broker. Early Childhood Education majors have held jobs as teacher's aid, playground leader and waterfront director. Fashion Merchandising and Clothing, Textiles and Design majors have worked in a variety of sales positions. Jobs for Home Economics Education majors range from power machine operator to baker's helper. Industrial Education and Industrial Technology majors work as carpenters, draftsmen, welders, mechanics, design technicians, production engineers and material handlers.

"Every year the list expands in scope," said Ganzemiller. "The reason we got into this is that no matter how much laboratory space you have or how many relevant faculty members there are, you can't simulate the environment of the free enterprise system or the type of relationship you have with people when you are working in industry," he noted.

He pointed out that the typical high school and college student grows up primarily within a small group of teachers, parents and peers of similar background. But when students enter the business world, they often find that they are dealing with people from very diverse backgrounds. "A lot of students are perplexed with how to deal with these situations," he said.

To help them, students submit weekly reports on their activities in which they outline both problems and accomplishments. Other assistance is also available to students from faculty coordinators to which they are assigned. Generally, students receive two credits for each semester or summer of off-campus work. One credit is awarded for work in the field and the second for a written report which is required from each student. The report includes duties, responsibilities, problems and solutions within the job. It must also show how the Field Experience relates to specific courses on campus and to the student's own vocational objectives.

After returning to campus, each student participates in an evening seminar with five or six other students who have also obtained similar or related Field Experience.

Students are also expected to set weekly objectives and to describe specific learning achievements they attain.

In many instances, the Field Experience allows the students to learn more about specific careers, before making final decisions on their majors. "Many students really don't know what careers they want," Ganzemiller said. "We want to get them into the working environment early enough to help them make these kinds of decisions."

Some students may decide to enter the type of industry in which they receive their Field Experience. Others may end up teaching the subjects they experience as high school, vocational school and junior college instructors.

Reaction to the idea has been good and students have expressed a variety of benefits they can relate to their

education. "I can't see how a person in my major can go out and teach without working in industry," one Industrial Education major wrote in his evaluation sheet. "It (the program) helped me to gain a new outlook on my field and of people in general."

"My experience was fantastic," wrote a Home Economics Education major. "I would like to share it with more people. I think it could get them motivated to do more and see the many possibilities for education majors."

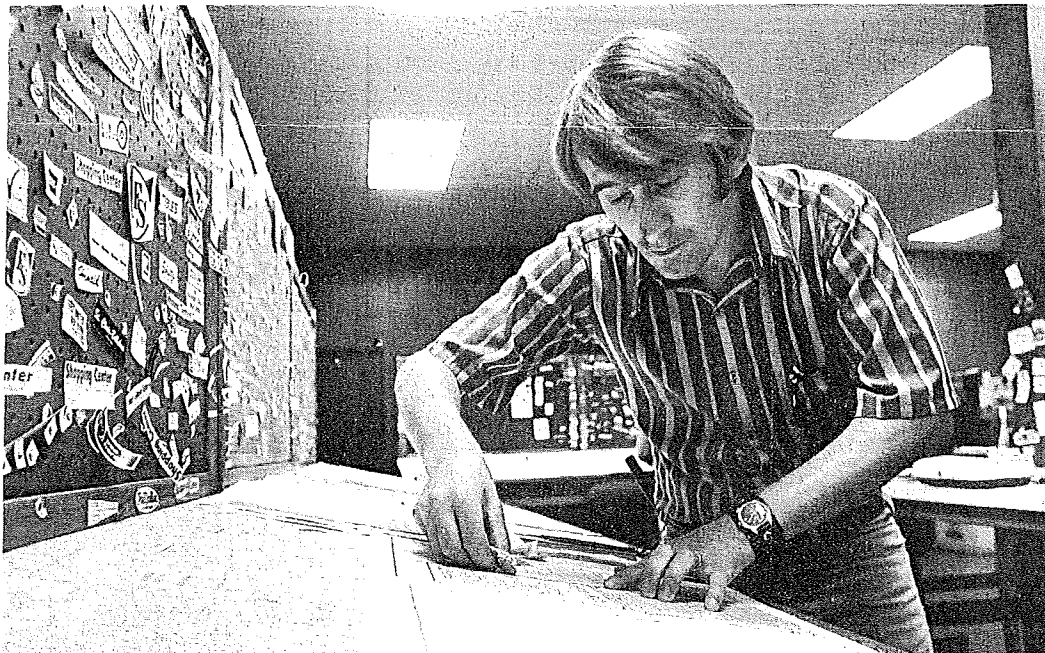

A Hotel and Restaurant Management major said, "I had no experience in hotel and restaurant management until I worked in the field this past summer. My classes are more meaningful now. I could have earned more money in my old job, but with Field Experience I gained 100 percent more."

A Fashion Merchandising major had a similar reaction. "I took my Field Experience early in my college career and now I can see the classes in the light of experience," she said.

Some students said that the program also provided valuable experience for the employer and others stressed the importance of students relating summer jobs to their academic fields. A few indicated they changed their majors after finding out what it was like to work in a chosen field.

While providing the students exposure to the world of work, Field Experience has an even more important effect on its participants; that is, a change in attitude. Ganzemiller said that most Field Experience students develop a more realistic attitude toward work and, in many cases, these students show a distinct improvement in the kind of work they do when they return to the classroom.

And there is another benefit many students never even anticipate. Field Experience often opens the door for permanent employment. "After graduation, students often go back to the company in which they obtained their Field Experience," Ganzemiller said.

Clyde Bowman Returns

The name Clyde Bowman is familiar to most Stout alumni. Some remember him as the much-liked Dean of Industrial Education or the Acting President. Others know him as the man for whom Bowman Hall--the tower building--was named. In any case, Bowman occupies an important part of the Stout history. And so it was with befitting enthusiasm that Bowman was received last spring when he returned to campus after more than 20 years retirement.

Still interested in education and with Stout, he journeyed from his Laguna Hills, Calif., home to receive the University's Distinguished Alumni Award and to chat with Chancellor Robert S. Swanson on changes

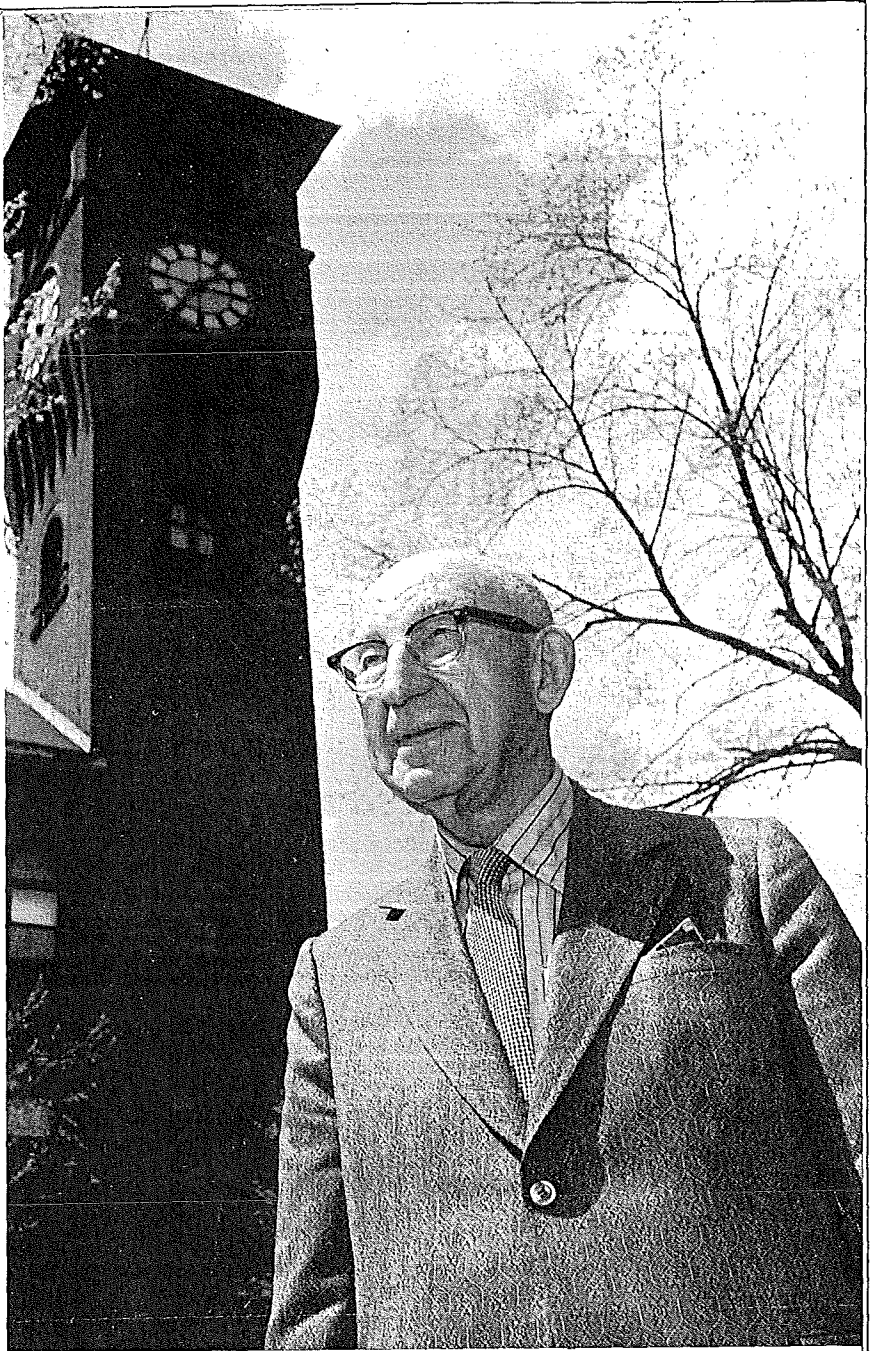

and developments that have taken place in the institution since he left in 1953.

Bowman received his diploma from Stout in 1909, followed by additional degrees from Columbia University and University of Wisconsin--Madison. He joined the Stout staff in 1919 as the first Dean of Industrial Education. When Lorenzo Dow Harvey, the University's first President passed away in 1922, Bowman was appointed Acting President. He served in that capacity for nearly a year,

before Burton E. Nelson was appointed a successor to Harvey.

Bowman was always a favorite of the Stout faculty and many staff members maintain contact with him today. "Bowmanology," a system of charts and graphs he used to organize facts, continues to be part of the Stout lore.

His agenda last spring here at Stout included a special reception in the Student Union and a picture taking session during which we asked him to pose next to the tower building.

Eight Faculty Members Retire

The retirement of eight faculty members at Stout has been announced by Chancellor Robert S. Swanson. They include Ralph G. Iverson, assistant chancellor for Student Services, who will retire Jan. 1; and John A. Jarvis, professor of industrial teacher education and former vice-president for Academic Affairs, who retired July 1. Other staff members retiring last summer included Miss Ella Jane Meiller, administrator of the Department of Food and Nutrition; Gustave Wall, professor of education and psychology; Mrs. Lorna Lengfeld, professor of speech; Miss Karen Boe, assistant professor of English; Henry Redkey, professor of vocational rehabilitation; and Mrs. Florence Blank, assistant professor of early childhood education.

Under Iverson's leadership, the Division of Student Services was established at Stout. The unit includes offices such as admission, financial aids, records, counseling, placement, food service and student living areas. In announcing Iverson's retirement, Swanson called him a "key figure on the Stout campus," noting the variety and depth of the many services Iverson created for students on campus. "Although he has had a considerable part in the growth of the University, he never lost sight of an even more important development--the growth of the student," Swanson said. "His background and training and natural feel for people has caused him to maintain a key interest in student welfare."

Iverson holds degrees from Augustana College, Sioux Falls, S.D.; the University of Minnesota; and the University of California. He has served in a variety of positions in education including principal of Rutland, S.D., High School; superintendent of schools at Rutland, superintendent of schools, Jasper, Minn.; assistant principal of University High School, University of Minnesota; and professor and head of the Education Department at Luther College, Decorah, Ia. He served briefly as assistant professor of education and psychology at Stout in 1946, joining the staff again in 1951.

Under Iverson's leadership, Stout's Master's degree program in guidance was established. "Dr. Iverson saw the need and potential for a considerable increase in guidance counselors at the elementary, secondary and technical institute levels,"

Swanson said, adding the major Iverson developed is now one of the largest and most respected in the region.

Iverson was also responsible for the development and operation of Stout's annual Guidance Conference, which is now considered one of the largest meetings of its kind in the country. The Conference has continued uninterrupted for 21 years and now draws several thousand persons each year from throughout the Midwest.

While on the Stout staff, he held a variety of administrative posts including director of Student Personnel Services, dean of Student Services, and vice-president of Student Services. From December 1971, until September 1972, Iverson headed the institution as acting chancellor. "His role in administering the University left no doubt about his outstanding leadership capabilities, and he made the position of Chancellor an easy one to assume," Swanson said. "His steady mature approach, always thinking of how decisions will affect people, has aided Stout in keeping on the right track in furthering the goals for education and the community." Swanson said that he considered it a distinct honor to have worked with Iverson over the years, first as a student in his classes, then as a fellow faculty member and administrator. Calling Iverson "truly a Stout man," Swanson said, "His presence will be truly missed on this campus, but the many ideas he has contributed will continue to develop and grow."

Iverson has been active in numerous professional organizations. He has served as chairman of the Wisconsin Education Association's Council on Education, a delegate to the American Personnel Guidance Association Assembly, treasurer of the Wisconsin Personnel and Guidance Association and a member of the Governor's Committee on Children and Youth.

A banquet in honor of Iverson will be held Friday, Nov. 30, and all alumni are invited to attend. The banquet will take place at 7 p.m., in the Stout Commons, preceded by a 6:30 reception in the Glass Lounge. Reservations, at \$6.50 per plate, can be made by contacting Sam Wood, dean of students. Checks should be made payable to the "Iverson Committee."

Jarvis had been a faculty member at Stout for 27 years and headed the University's academic division during much of the dramatic growth of the institution. A nationally acclaimed professor of industrial education, he also served as acting president of Stout in the winter of 1971. He had been teaching industrial arts on campus since stepping down as vice-president for Academic Affairs in 1971.

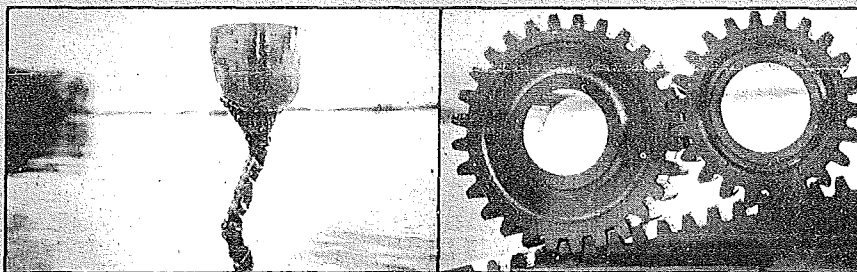

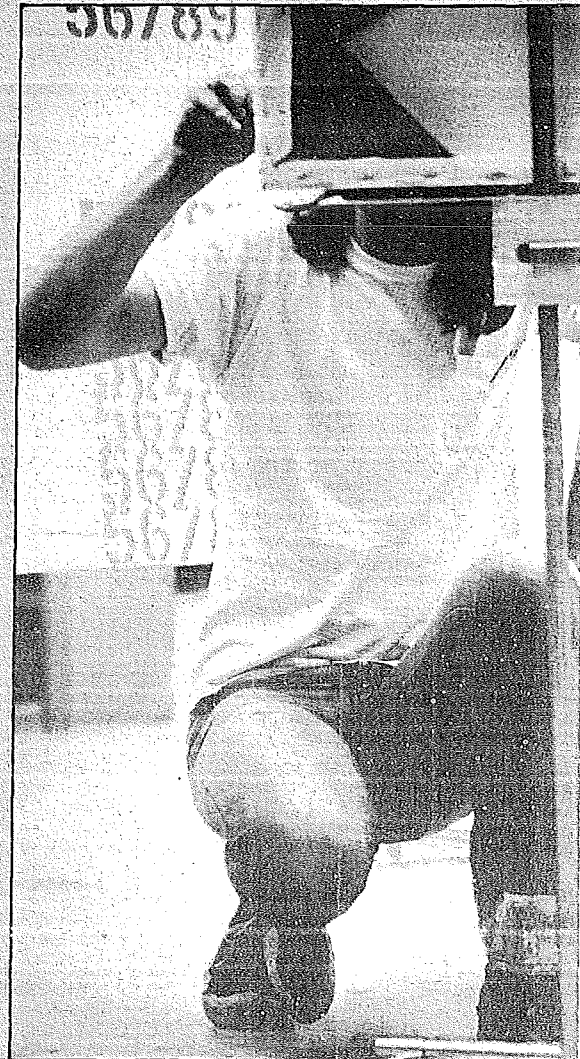

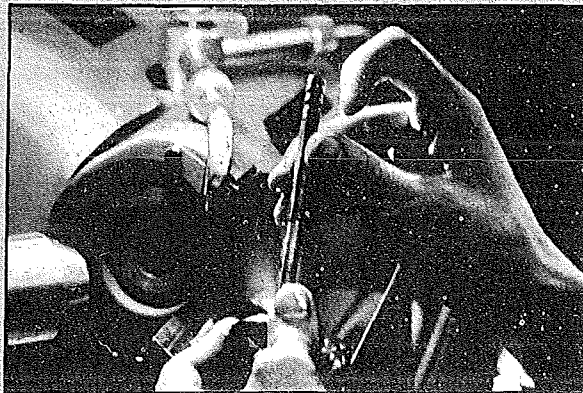

In announcing his retirement, Swanson said Jarvis will be "long remembered for his great contributions to Stout." Swanson said that when Jarvis came to Stout as a faculty member in 1946, he was very quickly recognized by both students and faculty as an unusual individual. "Many were predicting that he would be in a leadership role," Swanson said.

Jarvis was appointed dean of industrial education in 1953. He was named the chief academic officer when he was appointed dean of instruction in 1964, a position which later became vice-president of Academic Affairs.

Swanson cited Jarvis' contribution to the "professional advancement of many persons now on the faculty and administration at Stout, as well as those in public schools and industry throughout the United States."

Jarvis holds degrees from University of Wisconsin—Madison, Stout, Wayne University and the University of Minnesota. He served three and one-half years in the U.S. Navy during World War II and was the commanding officer for an anti-aircraft training center.

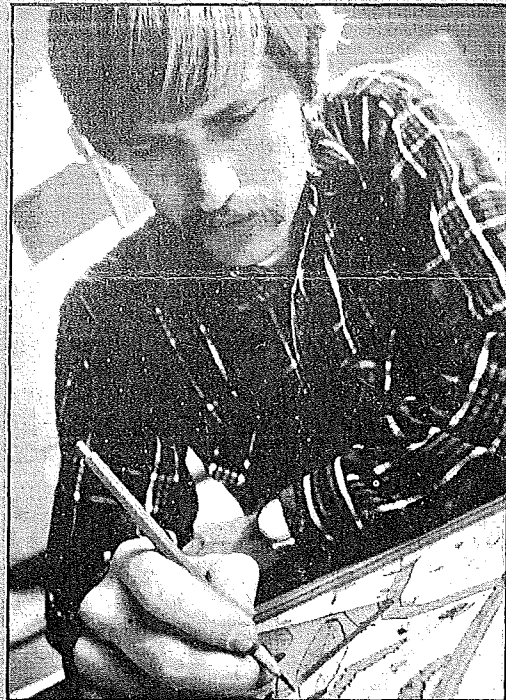

His teaching experience has included Flint, Mich., Junior
(continued on page 12)

ART / TECHNOLOGY

The growth of technology in the 20th Century has been paralleled by a concern that the humanistic aspect of our society not be lost to the machine. Stout has shown leadership in addressing itself to that concern with an emphasis on both the practical aspect of technology and the humanistic aspect of art. The relationship to these two important parts of education is expressed in this photo essay by John Williams, coordinator of photography, here at Stout.

Class Notes

1922-1925

Doing volunteer work as "Mr. Fixit" in a retirement home is **LAWRENCE W. KUNKLE** Dip. '22, Quarryville, Pa.

GUY TOLLERUD Dip. '23, BS '30 is doing long range educational and facility planning for Golden Valley Lutheran College, Minneapolis, Minn.

Doing public opinion surveys is **ZELLA PATTERSON HANNAS** Dip. '23, Green Bav.

HARRY W. HEIDEMAN Dip. '23, BS '34, Louisville, Ky., is teaching defensive driving to retired people twice a year.

THOMAS E. RICHARDS Dip. '23, BS '26, MS '48, Winona, Minn., has traveled around the world and to every state except Arizona and New Mexico.

ELIVIRA WEST Dip. '23, BS '25, Ironwood, Mich., retired after teaching 38 years in Detroit. She is very active in several organizations.

COROLLA POFFRATH SORUM Dip. '23, Minneapolis, traveled throughout the USA first and since has traveled all over the world, including the Orient, Africa, Europe and the Holy Land.

Although retired, **KENNETH CLARK** Dip. '23, BS '26, Southfield, Mich., is the editor of a senior citizen publication.

President-elect of the Illinois Retired Teachers Association is **ROY DAMBERG** Dip. '23, BS '32, Galesburg, Ill.

Since retirement, **HERBERT B. LARSEN** Dip. '23, BS '40 has traveled twice to Scandinavia, all parts of the United States and east to west in Canada.

Since retiring in 1966, **LILAH SHOLES JENSEN** Dip. '24, Bloomington, Minn., has traveled extensively in the United States and the Orient.

MARGUERITE MOWERS VESPERMAN Dip. '24, Eau Claire, is a comptroller for Chippewa Valley Sporting Goods which is owned by her husband.

MABEL E. SPINK Dip. '24, BS '39, Platteville, has traveled five times to the Scandinavian and European countries since retirement.

Although retired, **ROBERT M. SHIELDS** Dip. '24, Boyne City, Mich., still does substitute teaching. He is also an active member of several organizations.

PAUL H. HUBER Dip. '24, BS, '31, MS '40, Douglas, Ariz., is president of Chochoise County Retired Teachers Association. Although retired, he frequently does substitute teaching.

CARL '25 and **LILLIAN FALKENRATH GAVIC** BS '25, Indianapolis, Ind., traveled to Scandinavia in 1969, Europe in 1971 and this year to Hawaii.

1930-1951

Honored by Stout in 1966 as a distinguished alumnus, **HENRIETTE QUILLING** BS '31, MS '37, St Paul, retired July 31 as supervisor of Home Services Department for Northern States Power Co. She has been a member of the Stout Foundation Advisory Board since 1962, and was a member of the Board of Directors and vice-president of the Board from 1964 to 1969. She expects to travel around the world this fall.

EARL SWOYER '33 retired this spring from his position as industrial arts teacher in a junior high school in Hazleton, Pa. Earl and his wife visited the Stout campus in June.

MARTHA BUBECK SCHMIDT '34 is counselor for the Madison Public Schools. Each summer, she serves as a counselor for the Foreign Study League and this summer accompanied students to Italy, Russia, Hungary, Austria and England.

E. C. HOERNEMANN '35 is retired and lives at Elk Point on Tainter Lake in Colfax.

DORR C. SNOYENBOS '35, personnel director at the Oak Creek plant of Delco Electronics, retired recently, ending a 30 year career with General Motors. He has also been a member of the Stout Board of Visitors.

EVELYN F. BERG KLUG '43, Cedarburg, is a supervisor-coordinator in home economics at Port Washington Campus of Milwaukee Area Technical College. Her son **WILLIAM** '71 is completing his first year as a Peace Corps volunteer in Kenya, Africa.

After serving the Baltimore County Public Schools for 33 years, **WILLIAM A. ODELL** '39 has retired.

VINCENT MYRICK '37, Altoona, teaches at District One Technical Institute in Eau Claire. He is president of the Wisconsin Association for Vocational and Adult Education.

ARTHUR B. MATHER '38, Sheboygan, is the owner and operator of the Mather Kitchen Mart, as well as a custom cabinet shop.

IRVING V. BEHM '43, Hampton, Va., visited the Stout campus in May to enroll his son for the 1973-74 school year. While enrolled at Stout, he was a featured soloist with the Symphonic Singers.

JOHN E. BAIRD '47 visited the Stout campus in July. He is currently with the California Department of Water Resources in Fresno.

HAL J. CHRISTIANSON '49, Rock Falls, Ill., is a department head at Rock Falls Township High School where he teaches woodworking and power mechanics. His wife **JEAN (SCHWALBE)** '49 reports that he is building an all wood structured airplane.

The Stout Alumnus

The Stout Alumnus is an official publication of University of Wisconsin-Stout. It is published quarterly and entered at the post office in Menomonie, Wis., as third class matter.

Jack Wile Alumni Director
John K. Enger Editor
Judy Olson Ass't to the Editor

Retired since 1966, **WALDO H. BERRY** MS '50 and wife spend six to seven months in Bradenton Beach, Fla. The rest of the year they reside in Tomahawk.

GARTH E. WILCOX BS '51, MS '64 is the local vocational education coordinator (LVEC) for the Tomahawk School System.

1953-1962

In addition to raising four children, **DOROTHY MESSERSCHMIDT GROEMLING** '53 is currently writing household hints for an almanac.

JAMES E. COOK '53 is vice-president for research and development at Kellogg Community College, Battle Creek, Mich.

DONALD O'BRIEN MS '56 is vocational department head at Cooley Senior High School in Detroit.

ROBERT A. ERICKSON BS '56, MS '58, MS '60, New Richmond, is project director for the State of Minnesota Department of Corrections.

RICHARD T. ANDERSON '57 is director of Waukesha County Technical Institute in Waukesha.

DONALD E. BS MS '57 and **MARY SEPPANEN MAURER** '56 reside in Clemson, S.C. He is professor of industrial education at Clemson University.

MARLYS PETTIS SCHNEIDER '59 is teaching pre-school children with the Head Start program in Alexandria, Minn. She hopes to locate a teaching job in home economics and move to Rice Lake sometime this fall.

Residents of Minnetonka, Minn. are **ROBERT F.** '61 and **DONITA BEGUHN PAPAS** '60. He is chairman of the Department of Graphics Communications at the New Hennepin Technical Center in Eden Prairie, Minn.

Working as a consulting dietitian for the hospital and nursing home in Dillon, Mont., is **JEAN OWEN POFF** '61.

WARREN JOHNSON '61, Wausau, has been promoted to chief engineer at Wausau Paper Mills in Brokaw.

JACK GUSTAFSON BS '61, MS '62, Manitowoc, received an outstanding service award from the Wisconsin Driver and Traffic Safety Education Association.

JOEL L. BAHR '62 was recently promoted to division manager for Condominium Development.

JULIANN THOMPSON MARTIN '62, Rialto, Calif., is an instructor of foods and nutrition at San Bernardino Valley College.

LAUREN WARFORD MS '62 visited the Stout campus in June. Before retirement, he was head of the printing department at Junction City Senior High in Junction City, Kan. He earned his Master's by attending summer school at Stout for nine summers between 1946 and 1962.

1965-1972

DENNIS HARMS '65, a native of Colfax, is now an international guide in Chugiak,

Alaska. He taught industrial arts a short time in Anchorage, but preferred the outdoor life. He also pilots his own airplane.

ROBERT D. FRUTH '66, Bolingbrook, Ill., has been promoted to department manager of pulp finishing operations of the Midwestern Surgical Dressings Plant of Johnson and Johnson in Chicago. He has been with the company since 1970.

Fruth

RALPH D. EDELBACH MS '66, Trenton, N. J., received his Ed. D. degree from Rutgers University, New Brunswick, N. J.

GEORGE L. WENTHE '67 recently purchased a small printing business in Waterloo, Ia.,—known as the Allen Printing Co.

Lt. DENNIS A. KOEPP '69 is stationed with the U.S. Navy in the Philippines. Before entering the military service; he was employed by the Ford Motor Co., Dearborn, Mich.

Winning a 10-day expense paid round trip to Italy for her sewing contest entry was **CATHERINE BURGHER MC CABE '69**, Grantsburg. Her husband **MICHAEL '70** is an industrial arts instructor there.

ROBERT L. FELDKAMP '69 has been promoted to supervisor of quality in printed circuit subassembly for Univac in Minneapolis.

NORMA ANDERSON KLIMKE '69 has completed a special internship at Walker Art Center. She lives with her husband **ROBERT '68** in Edina, Minn.

RUTH EGGERT '70, former extension economist, has been named youth home economist in the Shawano County Extension office. She will work mainly with the 4-H program and to act as director of the expanded foods, nutrition and education program in the extension office.

JOHN MS '63, Ed.S. '71 and **AUDREY GNIFFKE ANDERSON '64** reside with their two sons in Excelsior, Minn. He is department chairman for industrial arts in the Minnetonka School System.

PATRICIA KESTLY '71, Hibbing, Minn., couldn't find a teaching job so she started her own nursery school two mornings a week. The objective of "The Curiosity Shop," held in Faith Lutheran Church in Chisholm, Minn., for youngsters 3-5 years, is to better enable children to cope with their environment. Her husband **GREG BS '70**, MS '71 is a work evaluator at the Community Workshop Development Center in Hibbing.

SHARON SUCHLA '72 is teaching home economics at West Junior High School in Wisconsin Rapids.

Teaching family living at Goodrich Senior

Distinguished Alumni Honored. Clyde A. Bowman (right) Laguna Hills, Calif.; and Rosalind C. Lifquist, Washington, D.C., were the two distinguished alumni honored during spring commencement ceremonies. Bowman was the first dean of industrial education at Stout and served as acting president in 1922. Miss Lifquist had a life-long career of educational and service activities related to the field of home economics. She has held a number of key positions in the field including consumer economic specialist for the U.S. Department of Agriculture, before retiring this year. Both received plaques citing them for their accomplishments. Looking on is Chancellor Robert S. Swanson.

High School in Fond du Lac for the 1973-74 school year is **RHODA J. WARREN PROCHNOW '72**, Markesan.

CHRISTINE GERMAINE ALBERTSON '72, Haddonfield, N. J., graduated in May from Perth Amboy General Hospital after serving a nine-month internship.

1973

BILL RUDOLPH, Menomonee Falls, is employed by Briggs and Stratton, Milwaukee.

A new face at Eisenhower High School in New Berlin is **TOM SELVICK**.

LARRY WALLEN, Cushing, is an industrial engineer with Donaldson Co., Inc., Dixon, Ill.

A new employee at Wik Homes, Mazomanie, is **STEVE OLBERT**, Mondovi.

GARY KEMPEN, Kaukauna, is employed with International Harvester in Eau Claire.

Teaching industrial arts at Port Washington High School is **WILLIAM ROEHR**.

Nikolet College has a new guidance counselor. He is **DAVID CHRISTOFFERSEN**, Ogema.

DONNA FINUCAN, Mauston, is serving her dietetic internship at the University of Arizona at Tucson.

FRANCIS ANDERL, Bloomer, is a TV-studio technician at WCCO-TV, Minneapolis.

A new industrial education instructor at

Bowler Public Schools is **TOM W. SMITH**, Caroline.

A new teacher at Sheboygan North High School is **TOM VANDENBERG**, Kaukauna.

Employed by Brown and Bigelow, St. Paul, is **RONALD B. JOHNSON**, Minneapolis.

JEFFREY P. DE BRUIN is a manufacturing engineer for General Electric in Columbia, Tenn.

MIKE WETTSTEIN is teaching industrial education at the Waukesha Junior High School for the 1973-74 school term.

An industrial arts instructor with the Elkhorn Area School is **MICHAEL OGREZOVICH**, Waukesha.

ELEANOR WENDT, Ft. Atkinson, is teaching home economics at Watertown High School.

Holding a fashion merchandising degree, **NANCY KAY EKUM** is employed by the Young Quinlan Department Store in Minneapolis.

MICHAEL MUCHOWSKI is an industrial arts instructor at Horning Middle School, Waukesha.

The newest member of the managerial staff of the Sports Chalet at Scotland Resort, Oconomowoc, is **MIKE LO CICERO**.

MARK BLAHNIK, Lena, is employed by the Gehl Manufacturing Co., West Bend, as a design engineer.

Employed by Arps Corp. as an industrial engineer is **DOUGLAS KRENZ**, Fall Creek.

MARY CAVE, Wilson, is employed with Wausau West High School.

JEFFERY SCHEEL, Menomonie, has been named St. Croix County Extension Manpower agent with headquarters in Hudson. His duties are to analyze and interpret employment needs of the county, available manpower, training opportunities and possibilities for employment expansion.

Marriages

1965-1970

MARILYN JEAN MILLER '65 to **JOHN EDWARD STREIF** '68, Apr. 7, in Prairie Farm. At home in Altoona where the groom teaches industrial arts. The bride teaches home economics at Mondovi High School.

Maria Ebnal to **JERRY W. PUSCH** '68, Apr. 14, in Racine where they reside. He teaches graphic arts at Horlick High.

Susan O'Neil to **ARTHUR PAULSON** '69 June 16, in Stiles. At home in Lena.

KATHLEEN MARIE KUNICK '70 to **RONALD L. SONJU** '72, June 23, 1972, in Madison. At home in East Moline, Ill., where he teaches vocational electronics at United Township High School. She is an early childhood education instructor at Black Hawk State College.

CYNTHIA COBB '70 to **Ronald Pederson**, June 23, in Manitowoc. At home in Valders.

Barbara Ann Carver to **JEREL J. JOHNSON** '70, Apr. 21, in Greenville, S. C., where they reside. The groom is employed by the General Electric Co. as a production control systems specialist. He is also doing graduate work at Furman University.

1971-1972

BRENDA SENG '71 to **Dennis Brandt**, Aug. 11, in Potosi. At home in Kalamazoo, Mich.

Mary King to **DAVID SZALANSKI** '71, June 16, in Whitefish Bay.

JO ELLEN CHIAPPETTA '71 to **Jackie Anacker**, Mar. 31, in Menomonie. At home in St. Paul where the bride is employed by the Donaldson Co.

Sue Ann Smith Sears to **JAMES F. ADAMS** '71, Apr. 14, in Janesville. He teaches industrial arts at Evansville Middle School. At home in Janesville.

COLLEEN KAPLAN '71 to **Charles Nielsen**, May 26, in Racine.

MARY ANDERS '71 to **MICHAEL KOSLOWSKI** '71, May 26, in Oshkosh. At home in Oshkosh where the groom teaches graphic arts and driver education at Oshkosh West High School. The bride is a home economics teacher at Winneconne High School.

ALEXIS NELSON '72 to **Howard Tenpas**, July 22, 1972. At home in Superior where she teaches home economics at the high school.

KAREN MICKELSON '72 to **BILL PENDLETON** '73, May 19, in Sister Bay. At home in Gary, Ind., where both the bride and groom are teaching.

JoAnn Loiz to **STEPHEN DOEDE** '72,

Apr. 21, in Wausau where the couple resides. He is employed with Keystone Pipe and Supply Co. in Schofield.

SHIRLEY BERG '72 to **Mike Meindel**, May 26, in Bloomer. They reside in Bloomer.

LOIS CZERWINSKI '72 to **JEFFREY MEINERZ** '72, May 5, in Hales Corners. At home in Denver where the groom is vice-president of Meinerz Dehydrating.

BETH PRINDLE '72 to **EDWARD LEHNERT** '71, June 2, in Appleton. At home in Milwaukee where the groom is employed with Imperial Lithographing Co.

BARBARA BEHREND '72 to **Charles A. Hoffman**, Feb. 17, in Klondike. She teaches at Einstein Junior High School in Appleton. At home in Green Bay.

1973

KAY ANN SCHNEIDER to **MICHAEL FETT** '72, June 9, in Manitowoc. At home in New Holstein where the groom is a construction superintendent for A. C. Fett and Sons Construction Co.

Laurie Drossart to **JIM HITTMAN**, June 2, in Casco. The couple resides in Milwaukee.

KAREN BREITZMAN to **KEITH PETERSON** '72, May 26, in Oshkosh. He is employed at Mercury Marine. At home in Fond du Lac.

KATHRYN PEICHL to **BRUCE LARSEN** '72, June 2, in Janesville. At home in Minneapolis.

PATRICIA DIETZLER to **Roy R. Rimmle**, May 19, in Wisconsin Rapids. At home in Key West, Fla.

COLLEEN THORP to **KENNETH POKALLUS** '72, May 12, in Menomonie. He is employed with Scientific Computers, Inc., Minneapolis. At home in Brooklyn Park, Minn.

Little Devils

A third son, **Tim**, Mar. 4, to **LARRY** '63 and **JUDITH WIKKERINK NEWMAN** '63, Menomonee Falls.

A son, **Keith Joseph**, Mar. 4, to **ROGER** '67 and **HELEN BARMORE SHIMON** '67, Sussex. He is an industrial arts instructor.

A daughter, **Shannon Antonia**, Jan. 17, to **ANTHONY** '67 and **MARY ANN GRAHAM KOJIS** '66, Boise, Ida.

A daughter, **Heather Ann**, Sept. 13, to **PETER** '67 and **KATHLEEN WARDLAW CONNORS** '68, Bloomington, Minn. He is a research specialist at the University of Minnesota's School of Public Health.

A second daughter, **Kristin Louise**, Dec. 15, to **Dean** and **ANN RUDE ZICKERT** '68, Minneapolis.

A son, Oct. 5 to **JACK A. MS** '71 and **ANNE GADERLUND MS** '71, Elgin, Ill. He is director of audio-visual communications at Elgin Community College.

A daughter, **Asante Tchiba**, Apr. 18, to **MICHAEL D. MS** '72 and **MYRTLE COLLINS DICKSON MS** '73, Long Island, N.Y. He is a media specialist for the Board of Cooperative Educational Services.

A daughter, **Angela Marie**, Nov. 6, to **ALAN** '73 and **PHYLIS HAKE TAYLOR** '69, Westmont, Ill.

Deaths

HELEN PARKHURST Dip. '06, 86, June, in New Milford, Conn. A native of Durand, she originated the Dalton Plan of Education and was founder and headmistress of the Dalton School of New York. She also authored four books entitled, "Education On The Dalton Plan," which was published in 58 languages; "Exploring The Child's Mind;" "Growing Pains" and "Undertow."

FRED L. CURRAN Dip. '08, BS '21, 94, Apr. 12, in Menomonee, Mich. He taught at Stout from 1908 until his retirement in 1939. He has co-authored a book and written magazine articles. A residence hall on the Stout campus has been named after him. Survived by two daughters and a son.

OTTO E. BRUNKOW '13, 81, Sandwich, Ill., May 7. He taught architectural drawing and design at Stout for two years following his graduation.

ARMIN GERHARDT SR. Dip. '25, BS '33, Neenah, July 14, 1972.

EVERIS NELSON '34, Mar. 17, of a heart attack. He had retired from Fullerton, Calif., Community College after 36 years in technical education.

A Menomonie native, **GERHARDT W. NEUBAUER** '38, 57, May 24, at Avon Park, Fla., where he resided since retirement in 1971. Survived by his wife and a daughter.

AUGUST SCHULZ

August J. Schulz, 44, a professor at Stout and a recognized leader in the field of safety and driver education, died May 26 following an apparent heart attack at his home.

A native of Oshkosh, Dr. Schulz served on numerous state committees for safety and driver education and held several national offices. He received a Bachelor's degree in industrial education from Stout in 1953. In 1959, he received a Master's degree from the Center for Safety at New York University, and in 1969, a Doctorate from the Center. He came to Stout as an instructor in 1964.

An untiring worker both in and out of the classroom, Dr. Schulz was an advisor to the Phi Sigma Epsilon Fraternity and a member of many civic organizations including the Kiwanis.

Dr. Schulz was a member of the Governor's Technical Committee for Driver Education; vice-chairman of the Teacher Education and Research Division of the National Safety Council; and a past chairman of the Higher Education Division of the American Driver and Traffic Safety Education Association.

People You Know

Remember Sam Neiman? He remembered us! Sam attended Stout for a year in 1924-25, and returned for the first time last April to attend Stout's annual haute cuisine dinner. He and his wife drove all the way from Texas for the affair. Sam has been in the contracting business in San Antonio for the past 40 years. He told us he has always been sorry he did not stay at Stout and get his degree. He remembers Clyde Bowman, Daisy Kugel and President Nelson; and he remembers instructor Robert Welch making him quit chewing tobacco to "clean up" his forging fire. While at Stout, he was a member of the Square and Compass Club and wrestled as a bantam-weight.

Greg Mickelson of Menomonie and his family "think Stout." Greg is a '68 graduate. His wife, Jacqueline Foley Mickelson, is a '69 graduate. Greg's sister, Terri Mickelson, is a '70 graduate. Another sister, Roxanne Mickelson, and a cousin, John Kessler, are currently students at Stout. And another cousin, Christine Mickelson Magnusson, is a '72 graduate. We would like to hear about other families who "think Stout."

Promotions in academic rank for nine Stout faculty members were approved last spring in Madison at a meeting of the University of Wisconsin System Board of Regents. The Board also granted tenure to 39 staff members on the Stout campus. Promoted from associate professor to professor were: Mehar Arora, Industrial Management; Oscar Carlson, Biology; Janice M. Keil, Human Development, Family Living and Community Education Services; and Wilson Kleibacker, Chemistry.

Those assistant professors promoted to the associate professor rank include Dennis J. Dunn, Rehabilitation and Manpower Services; A. E. Muller, Materials and Processes; Calvin Stoudt, Counseling and Personnel Services; Douglas A. Wikum, Biology; and Anita

The Chancellor's office has also announced that two staff members have been promoted from instructor to assistant professor. They are Lawrence Olivia, Habitational Resources; and Warren Wade, Social

Science. Change in rank from instructor to assistant professor does not require Board approval.

Those named by the Board to receive tenure include Donna Albrecht, Brooke Anson, Raoul Barlow, William E. Beane, Sue B. Beckham, Caroline M. Bosworth, Paul J. Carollo, Robert E. Dahlke, Dennis J. Dunn, Paul R. Edmondson, Esther K. Faris, Sandra Gill, R. Pinckney Hall, Judith Herr, Carol Hogstad, Dennis Hoogenboom, Kenneth Kajer, Janice M. Keil, Warren P. Lang, Terrance Lynch, David McCordick, Arthur Matthews, John Medelman, Eva Gail Misfeldt, William J. Mueller, Gerald Myers, Donald E. Osegard, Terry F. Petrie, John S. Salo, J. Anthony Samenfink, Arnold Sax, Roger Schaefer, William Schulman, Charles E. Smith, Renate Tietz, Lois H. VonBerg, John Wesolek and Douglas A. Wikum.

The editor of a Carnegie Commission Report on Higher Education and the man responsible for Minnesota's unified learning resources concept were the keynoters for Stout's eighth annual Educational Media and Technology Conference, July 16 through July 18.

The addresses were delivered by Verne A. Stadtman, assistant director and editor of the Carnegie Commission Report entitled, "The Fourth Revolution: Instructional Technology in Higher Education," and Luther Brown, dean of Learning Resources at St. Cloud State College, St. Cloud, Minn.

The purpose of the Conference is to bring librarians and audio-visual specialists up-to-date on what is going

on in their respective fields. People from throughout Wisconsin and its neighboring states are expected to attend.

A regional advisory group of top-level executives from business and industry has been formed at Stout. Entitled the Board of Business and Industrial Advisors, the organization consists of individuals from policy-making positions in the business community who will work with administrators and faculty at Stout in efforts to more closely tie higher education to business and industry.

The group, which reports directly to the Chancellor, replaces what had been previously known as the Board of Visitors at Stout. The 18-member Board will be expanded to include 24 persons from key industrial positions in Wisconsin, Minnesota and Illinois, and each Board member will work with a faculty counterpart on campus. The group will also inform the University on new developments and personnel needs within the fields of the various members.

The following people have been elected to the Board's three-man executive committee: Robert Bachmann, Milwaukee, chairman; Harold Polzer, Madison, vice-chairman; and Sanford Kruger, Eau Claire, at-large member. Bachmann is assistant to the vice-president for industrial relations at Kearney and Trecker Corp.; Polzer is personnel director at Oscar Mayer Co., and Kruger is factory manager of the Eau Claire Uniroyal Plant.

Appointed by the Chancellor at Stout, the Board will meet semi-annually.

Retirements

(continued from page 5)

High School, Flint Technical High School and the Armored Force School, Fort Knox, Ky. He is listed in "Who's Who in America" and is a past president of the American Vocational Association. A registered professional engineer, he has also served as a consultant for Franklin Book Program, Inc., Djakarta, Indonesia, and is the author of several publications.

William J. Micheels, former president of Stout, called Jarvis a "conscientious teacher, able administrator and loyal friend." Jarvis is widely known in the industrial education field and has been the recipient of numerous awards for his professional efforts.

A dinner in his honor was held Sept. 22.

Miss Meiller has been on the Stout staff for the past 23 years. She received degrees from Kansas State Agriculture College; Kansas State College, Manhattan; and a diploma from John Hopkins Hospital. She is the author of articles written for the American Home Economics Association, and several other professional publications. In 1967, she served as a faculty member for the workshop on "The Role of the Consultant and Part-time Dietitian" for the Wisconsin Dietetic Association and Wisconsin Department of Health and Social Services. She is also a member of numerous professional organizations. Miss Meiller taught nutrition at Kansas State College before coming to Stout.

Wall joined the University in 1952 after teaching industrial arts at the high school and college levels. He received his Bachelor, Master's and Doctorate degrees from the University of Minnesota. He holds honorary life membership in the American Council of Industrial Arts Teacher Education, and has written a variety of articles and publications for his field. He has been active in campus organizations and professional groups. Wall has also served as a consultant for vocational schools.

Miss Lengfeld has been at Stout for 17 years. She received degrees from UW-Madison and the University of Minnesota. Beginning with an elementary education teaching assignment in 1921 near Logan, Ia., Miss Lengfeld's career carried her to a variety of institutions. Among them are the University of Minnesota, Wilson College, UW-Madison, and Dickinson State Teachers College. She is the author of several articles on speech and related areas.

Miss Boe joined the Stout staff in 1964, after teaching in Wisconsin, Minnesota, South Dakota, and Nebraska. She

received her degrees from St. Olaf College, Northfield, Minn., and UW-Madison.

Redkey, a nationally known expert in the field of vocational rehabilitation, joined the Stout staff three years ago after retirement from government service. A graduate of Ohio State University and George Washington University, Redkey's citations include the Distinguished Service Award from the College of Administrative Science at Ohio State University.

Mrs. Blank came to Stout in 1969. She received her Bachelor's degree from UW-Eau Claire and her Master of Science degree in guidance from Stout.
